Deviations, objections and reservations to the provisions of the General Conditions of Contract, Special Condition of Contract and Technical Specification Clauses marked with "*" shall be considered as major deviations and the bid with such major deviations shall be rejected.
- 1.3 Nepal Television (NTV)'s determination of a bid's responsiveness will be based on the contents of the bid itself without recourse to any extrinsic evidence.
- 1.4 If a bid has one or more major deviations, found during examination of Bid, the bid is considered as Non Responsive Bid and it will be rejected by the Purchaser and will not substantially be made responsive by the bidder by correction of the nonconformity.

2 Detailed Technical Evaluation

- 2.1 Detailed Technical evaluation shall be carried out for those bids, which are found to be responsive after examination of bids as per above clause 1 of "1. Evaluation Methodology and Criteria". Detailed Technical evaluation shall be based on clause by clause compliance statements or comments on Technical Specifications of Section V, technical details, catalogues, brochures etc. furnished by each bidder. During the detailed technical evaluation, all the bids are examined in order to verify whether the offered quantity and capacity meet the requirements of Section IV "Schedule of Prices" and Section V: "Schedule of Supply" of bidding document and if required adjustment of goods shall be done. The cost of adjustment shall be determined during the Financial Evaluation.

If the unit price and the total price of the some item are not quoted, their prices shall be assumed to be included in the prices of other items.
